		14.7W	2700K, 3000K		Best	Y	1-3	1%
	PAR38 LED	17W	2700K, 3000K		Best	Y	1-8	1%
		19.5W	2700K, 3000K		Best	Y	1-4	1%

Performance Rating:

1. Better: Bulbs will dim, flickering may be present but not significant and diminishes with manual adjustment of slide.
2. Best: Starts at low end, dimming range similar to incandescent, no observable flickering

Turn on at Minimum level:

1. Y: The dimmer will start bulbs with the slide bar at the lowest position. The dimmer may require the user to preset the minimum light level for starting.
2. N: Bulbs will not start with the slide bar at the lowest position.

Quantity of Bulbs:

This represents the quantity of bulbs tested for compatibility purposes and is not intended to indicate the maximum load. The maximum load is limited to 150W for LED and CFL. In some cases, the minimum number of bulbs was increased in order to achieve better performance.

NOTE: LED/CFL/Incandescent dimmers – have been evaluated per the UL standard for specified dimmable LED, CFL and incandescent loads.
